N/A

**STRAIGHT SALE OR RENT TO BUY** This is a wonderful top floor penthouse overlooking the Mediterranean and just a few meters walk to the beach and lots of amenities, this would make a great investment for holiday rentals due to the location. The property consists of 2 bedrooms both with fitted wardrobes, a lovely family bathroom with walk in shower, good size lounge / dining area, with doors leading to a large wrap around terrace with the best view possible overlooking the sea, Open plan American kitchen with all white goods staying, outside storage area, there is also a very large shared solarium with even better view over the whole area and a lovely large communal pool, viewing is highly recommended as these don't come on the market to often especially on the rent to buy scheme
